## How many balloons can I fill with a helium cylinder?

That depends on a couple of things such as the size of the balloons and the size of the cylinder, as well as temperature and cylinder pressure. Use the chart below for estimating.

40 cu. ft.	125	60	35	25
60 cu. ft.	175	100	50	40

110 cu. ft.	340	180	90	75
