

MATHESON

Specialty Products for the Wine Industry

Barrel Master Device

The Barrel Master uses inert gas pressure to transfer wine allowing easily controlled, gentle flow without agitation or oxidation.

Features:

- Adjustable foot and bung for use with various sizes of barrels and kegs
- Stainless steel construction
- Built-in 15 psi stainless steel safety relief valve to prevent over pressurization
- 1-1/2" Tri-clamp connection
- Used with Nitrogen or Argon
- Shown with short Sight Glass
- Custom lengths available
