**Which Eye Wash is the Right Choice for Your Business?**

**Personal Eye Washes**
- Not ANSI or OSHA compliant
- Designed to supplement, but not replace a permanent eye wash station
- An ideal first response measure to use during transit to ANSI-compliant eyewash station

**Gravity-Fed Eye Washes**
There are two categories of Gravity-Fed Eyewashes:
- Stations that are filled with tap water and mixed with an additive or preservative. The eyewash mixture has a shelf life of 2-6 months.
- Stations that come with a bag or cartridge of manufacturer-prepared solution that will last 2 years

**Plumbed Eye Washes**
- Advantage of not needing to replace or clean gravity-fed units
- Require weekly activation as part of routine maintenance to prevent bacteria build-up

**Faucet-Mount Eye Washes**
- Attach easily to any standard or lab faucet
- No special plumbing needed
- May be activated with a single motion

**Emergency Showers**
- Required when there is a possibility of a corrosive to be deluged on your body, as opposed to a minor splash
- Can be ordered by itself or as a combination eyewash/shower unit
- If purchased as a shower only, an eyewash station must be located in the immediate vicinity

---

We are your source for Emergency Washes. If you need assistance in choosing the right product for your business or can’t find exactly what you’re looking for, please give us a call today and we’ll be happy to provide you with all the information you need to make the right decision.

Emergency Eye Washes

These bottles are ideal for use in a first aid room or on a jobsite to help remove non-toxic foreign particles. Solution also helps to relieve eye irritation due to pollen and dust particles. To ensure sterility, bottles feature a twist-off cap that cannot be resealed.

Emergency Washes Portable

**Sperian**

**2000 Sterile Eye Wash Station**
This unit delivers 100% sterile saline from a 100% sterile delivery system. A built-in alarm sounds when the unit has been activated and again when the required 15-minute flush is completed. Side windows allow for easy checking of the saline cartridge expiration date. Each station comes with a sign, mounting bracket, tamper seal, installation DVD and a 1-year warranty. **Sterile Saline Cartridges**, sold separately, have a 24-month shelf life. Meets ANSI Z358.1-2004 standard.

10902 Eye Wash Station. ........................................ $423.30
10903 Sterile Saline Cartridge, 62 lbs.................................. 275.85

**Speakman**

**Eye Medic Eye Wash Station**
This station is 100% gravity fed, so no mechanical operations are required. Spray nozzles deliver a soft, full stream of flushing fluid in excess of minimum recommended flow standards. High-visibility yellow detection panel provides easy detection and activation in case of an emergency. **Disposable Cartridges**, sold separately, contain purified flushing fluid and have a 24-month shelf life. Unit comes with standard wall mount hardware.

A. 59571 Eye Medic Eye Wash Station ........................................ $331.85
B. 59572 Disposable Cartridges, 2/Pkg. .......................... 149.00

**Sperian**

**Pure Flow™ 1000 Emergency Eye Wash Station**
Innovative design dispenses eye-wash at a constant pressure for the entire 15 minute flush cycle. Unit houses two 3.8 gallon cartridges which are safety-sealed until activation, providing a 24 month service-life. Choose from **Standard or Sterile Eyewash Solution**, sold separately. Set-up and maintenance costs are kept to a minimum because no solution mixing or unit removal is required. Fluid reservoir captures its own waste fluid to eliminate slip hazards. Warning sign appears when unit is discharged. Wall mount bracket is included. Meets ANSI Z358.1-2004 standard.

79042 Pure Flow 1000 ........................................ $418.00
79047 Standard Eyewash Cartridges, 2/Box .................. 174.80
12927 Sterile Eyewash Cartridges, 2/Box ...................... 239.10
50337 Mobile Cart .................................................. 528.30

**Sperian**

**FlashFlood Station**
Lightweight, portable, self-contained station sets up easily in eye hazard areas. Replaceable 1 gallon cartridge of Eyesaline® provides 3 minutes of flushing when unit is activated by pull strap. Once installed, cartridges should be replaced every six months. Station comes complete with **FlashFlood Unit** and one cartridge. (Note: Does not meet 15 minute flow requirements.) **Optional Storage Rack** keeps four extra cartridges handy for extended flushing.

25921 FlashFlood Unit with Cartridge ........................ $145.50
25922 1 Gallon Refills, 4's .................................................. 153.30

**Portable Emergency Washes**

---

**Bradley On-Site™ Portable Gravity-Fed Eye Wash**

This self-contained polypropylene unit is ideal for anywhere a water supply is not available. Eye Wash flushes eyes for 15 minutes at 0.42 gpm using only 7 gallons of water. Unit weighs 60 lbs. filled and 10 lbs. empty. Unit comes with an 8 oz. bottle of water preservative, wall mounting bracket, a universal identification sign and an inspection tag. Unit is also available with Heater Jacket to maintain water temperature at an average of 75°F in weather conditions to -20°F. Waste Cart provides a stable base for the Eye Wash unit and collects up to 56 gallons of waste fluid. Refill Kit includes a replacement cap, three liners and an 8 oz. bottle of water preservative. Meets ANSI Z358.1-2004 standard. 58499 will ship separately, direct from the manufacturer.

- **59448** Eye Wash Station .................. $297.70
- **58499** Eye Wash Station with Heater Jacket .................. 1,565.75
- **58500** Waste Cart .................. 329.55
- **58299** Refill Kit .................. 29.15

---

**Guardian AquaGuard Gravity Flow Eye Wash Station**

This 16-gallon unit can be filled with potable water and a Bacteriostatic Additive (included) for safe and effective eye washing in areas where plumbed water is not available. Unit discharges the solution at .7 gpm for 15 minutes. Full flow nozzles are activated by pulling down on the eye wash outlet tray. Flow is stopped by swinging the tray back up into the storage position. Unit can be wall or countertop mounted. Bacteriostatic Additive protects against the growth of bacteria, fungus and algae. Station meets ANSI Z358.1-2004 standard.

- **59422** Eye Wash Station .................. $247.20
- **59423** Bacteriostatic Additive, 8 Ounces .................. 18.55

---

**Sperian Portable Eye Wash Stations**

For Areas with No Plumbed Water

Unit easily activates with a pull strap to release a large eye wash spray pattern of eye wash. Station comes complete with hanging bracket, locking fill cap, 8” X 10” eye wash spray sign and one bottle of saline. 16 gallon unit meets ANSI Z358.1-2004 standard and is SEI certified.

- You should replace the fluid in your station with Eyesaline Concentrate or Premix every six months. Eyesaline balances pH level (7.4) and inhibits bacterial growth. Concentrate should be mixed in a 10:1 ratio with tap water. Bottles are safety sealed and dated. If you use the Premix, you will need 6 bottles for the 6 Gallon Unit or 16 bottles for the 16 Gallon Unit.
- Or you could use Defend® Water Preservative. Defend is formulated to inhibit the growth of harmful bacteria in self-contained eye wash stations for up to 4 months. It is not pH balanced. Concentration level is 1⁄2 ounce of preservative for every gallon of water.

Use stations with the Disposal Cart to collect the flushing solution and prevent slip hazards. Note: Eye Wash Station should be wall mounted and cannot be placed directly on top of disposal cart. Dust Cover keeps eye wash clean.

- **Eye Wash Stations**
  - 79004 6 Gallon Unit .................. $264.70
  - 79005 16 Gallon Unit .................. 373.85

Emergency Washes Portable/Faucet

Guardian
EyeSafe™ Faucet Mount Eye Washes
Mounts to Any Standard Faucet
Convert any standard faucet into an emergency eye wash station without interfering with normal faucet operation. Ideal for installing at sinks close to where accidents may occur. Provides an unlimited water supply for complete rinsing and cleansing. Simply turn on water and pull knob to deliver two gentle streams of water. All units include float-off dust covers. EyeSafe features adjustable aerated outlets heads mounted 3” apart. EyeSafe-X features adjustable aerated outlets heads mounted 5” apart for use with gooseneck faucets. These units are intended solely as a supplement to dedicated, plumbed eye wash equipment.

A. 79001 EyeSafe ...................................................... $73.50
B. 79018 EyeSafe-X .................................................. 94.25

Guardian
Eye Washes and Drench Hose
Eye Wash/Drench Hose Combos can be used as a fixed eye wash, or they can be removed for use as a drench hose to rinse any part of user's eyes, face or body. Two Gentle Spray outlet heads mounted side-by-side provide a soft flush to the eyes in an emergency. Units feature a squeeze valve with locking clip to provide "hands free" flushing. Separate Drench Hose can be purchased to supplement the eye wash. Units come with 8' hose, Deck Mount or Wall Mount bracket and emergency sign. 1/2" IPS inlet. Combo styles meet ANSI Z358.1-2004 standard.

52552 Deck Mount Eye Wash/Drench Hose Combo ..................................... $347.50
50336 Wall Mount Eye Wash/Drench Hose Combo ................................... 325.45
13737 Wall Mount Drench Hose Only ...................................................... 204.65

Bradley Faucet-Mount Eye Wash
Mount this eye wash to both standard and gooseneck faucets. Integral flow control assures a steady flow of water under varying water supply conditions. Unit is constructed of chrome-plated brass and comes standard with an adapter, diverter, twin sprayheads and pop-off plastic dust caps. Note: To eliminate the risk of scalding eyes during use, it is recommended that the hot water supply to the faucet be disconnected or that tempered water be provided. Meets ANSI 358.1-2004 standard.

A. 79001 EyeSafe ...................................................... $73.50
B. 79018 EyeSafe-X .................................................. 94.25

Guardian
Portable Eye Wash/Drench Hose
These units may be used in low traffic areas, low hazard areas or where installation of plumbed equipment is not cost effective. 15 Gallon unit provides 10 usable gallons of water for effective rinsing of the eyes, face or body. 10 Gallon unit provides 8.4 usable gallons of water. Eye wash unit offers two spray heads with a flip-top dust covers, internal flow control and filter. Pressure regulator controls eye wash flow to 0.65 GPM for 15 minutes in 15 Gallon Unit and to 0.50 GPM for 15 minutes in 10 Gallon Unit. Drench hose features a single spray head with flip-top dust cover and a 6' reinforced PVC hose. Tank has built-in carrying handles, air intake fitting, pressure gauge and pressure relief valve. This product will ship separately, direct from the manufacturer.

A. 12756 10 Gallon Unit .............................................. $1,281.60
B. 168452 15 Gallon Unit ......................................... 1,034.00
59423 Bacteriostatic Additive, 8 Ounces .................................. 18.55

Eye/Face & Showers

Emergency Washes

Combination Showers

Protect workers from chemical splash injuries with combination showers. Units feature eye wash or eye/face wash, 10" diameter impact-resistant shower head and emergency sign. Eye Wash includes two soft-spray outlet heads to flush the eyes. Eye/Face Wash has large, wide-pattern soft-spray outlet heads to bathe the entire face and eyes. Both washes include float-off dust covers. Galvanized showers are protected with a yellow, corrosion-resistant Polyurethane finish and are ideal for most work environments. Optional accessories include a Drench Hose, Flow Switch Alarm and Dust Cover for the Plastic Bowl. All showers meet ANSI Z358.1-2004 standard.

Eye and Face Wash

Wash away contaminants from your eyes and face in an emergency. Eye Wash Stations include two soft-spray outlet heads for flushing eyes. Eye/Face Wash Stations have large, wide-pattern, soft-spray outlet heads to bathe the entire face and eyes. Available with a corrosion-resistant Stainless Steel or yellow impact-resistant Plastic bowl. Piping and wall brackets are polyurethane coated. 3 gpm. ½ IPS inlet. Wall-mount styles include mounting brackets. All include an emergency sign and float-off dust covers. Retrofit Dust Cover is available for Plastic bowl unit. Meets ANSI Z358.1-2004 standard.

Eye Wash Station

79046 Wall Mount with Stainless Steel Bowl $324.60
79045 Wall Mount with Plastic Bowl 252.80
31927 Pedestal Mount with Plastic Bowl 329.30

Eye/Face Wash Station

31950 Wall Mount with Stainless Steel Bowl 350.75
31949 Wall Mount with Plastic Bowl 290.10
79044 Dust Cover for Plastic Bowl 128.75

Preparing for Eye-Related Emergencies

• Employees must be trained in the location of emergency eyewash station and its proper use
• An eye station sign should be posted near the station
• The area where the station is located should be well lit
• Station must be regularly maintained, including weekly activation of all plumbed units
• Station must be inspected at least yearly for compliance with the ANSI standard
