

Environmental Policy

MATHESON is committed to the prevention of pollution and to continually improve our environmental performance. The following environmental principles support our commitment

- ❖ Meet or exceed the requirements of all environmental regulations at local, regional, national and international levels. In the absence of regulations, environmentally sound practices will be implemented
- ❖ Establish targets for environmental impacts and review status and progress periodically
- ❖ Continually assess our process technology to assist in the minimization of energy and material usage, generation of waste, and impact on the environment
- ❖ Promote product substitution and the reuse and recycling of products, when possible
- ❖ Maintain a trained workforce that takes responsibility for operating efficiently and in an environmentally responsible manner
- ❖ Continuously involve the ideas and suggestions of suppliers, contractors, and customers to improve the environmental quality of our products
- ❖ Implement corporate controls, including periodic assessments, to confirm that the Company's environmental policies are being maintained
