

Environmental Policy

MATHESON is committed to the prevention of pollution and continual improvement of our environmental performance. We meet or exceed the requirements of all environmental regulations at local, regional, and national levels. In the absence of regulations, environmentally sound practices will be implemented. MATHESON has established objectives and targets for environmental impacts and reviews their progress periodically. We are dedicated to maintaining transparency of our goals and results to provide effective interaction and communication with suppliers and customers.

MATHESON provides products and services that are produced in an environmentally sensitive manner. We support efforts to minimize energy consumption, materials usage, and waste generation, as it coordinates with business activities. Our workforce is trained to operate efficiently and to recognize our environmental impact within our business operations.

MATHESON utilizes reviews and audits to confirm that the Company's environmental policies are being implemented. These results are used to strengthen our Environmental Management System and our commitment to continual improvement and environmental stewardship.
