

# *Protect Your Specialty Gas System Investment*

When it comes to protecting your specialty gas system investment, no one in the industry comes close to providing the service and support of **Matheson Tri-Gas**. We offer pro-active, comprehensive maintenance services designed to keep your investment in top condition.

Purchasing gas handling or purification systems from Matheson Tri-Gas is not the "close of the sale" -- but the beginning of a partnership. Consider Matheson Tri-Gas Field Service Engineers (FSEs) and resources as an extension of your engineering, facilities and maintenance staff. We understand that uptime directly impacts your yield and profitability.

A Matheson Tri-Gas FSE is available 24 hours a day to respond to customer calls to resolve service issues by phone or to schedule a service call. Matheson Tri-Gas is dedicated to providing the right answers by utilizing the combined know-how of the engineering, manufacturing, applications, and service staffs to provide you with systems that deliver optimal performance.

For more information or to schedule a visit, call **Matheson Tri-Gas Field Service** at **1.800.850.6231**.
