

Vision

(2015)

Making Our Planet Smarter

We will be recognized as the industry benchmark for Safety, Quality,
Customer Focus and Profitable Growth

We will supply plants, industrial gases and related
equipment internationally

We will be recognized as the premier brand of specialty gases
and equipment internationally

We will be recognized as the premier supplier of critical process
material for advanced electronics, solar, and compound semiconductor
technologies

We will help make our planet smarter in management of our
environment through the use of green technologies and applications
of our products and services
