

Vision

(2012)

We will be recognized as the industry benchmark for Safety, Quality
and Profitable Growth

We will be a national supplier of industrial gases, specialty gases and
related equipment in the U.S.

We will be recognized as the leading supplier of critical electronics
process materials for each next generation technology

We will be recognized as the premier brand of specialty gas and
equipment internationally

We will establish world class cryogenic plant design and engineering
capabilities in the U.S.
