Choosing the Right Suspension

The Suspension is the backbone of your Hard Hat. Consider these factors when making your choice:

- Suspensions are available with either 4, 6 or 8 points. Typically more suspension points spread out the force of an impact.
- Suspensions should be replaced annually.
- Replace suspensions when they show cracks or tears, or loss of pliability.
- All points must fit securely into slots.
- Never replace a suspension with one made by another manufacturer.

Consider Comfort

When a Hard Hat is uncomfortable, workers will stop wearing it. Make sure every worker gets the fit and feel they want with:

- Vented Hard Hats to keep the head cooler
- Bump Caps as a lightweight alternative when a Hard Hat is not OSHA required
- Terry Cloth and Vinyl Brow Pads to keep sweat out of the eyes
- Winter Liners to insulate the head

Style Matters

If a worker likes how their Hard Hat looks, they’re more likely to wear it all day. That’s why we offer:

- A wide variety of colors
- NFL Hard Hats featuring all your favorite teams
- Patriotic Hard Hats featuring the American and Mexican flags
- Custom Hard Hats imprinted with your company logo

Hard Hats with Added Safety Features

Hard Hats with added features improve employee safety.

- Full Brim Hard Hats offer additional protection from the rain and sun
- Hard Hats with rain troughs keep water away from your eyes and face
- Slotted Hard Hats allow for additional accessories such as earmuffs and faceshields
- Type II Hard Hats add additional protection from side impacts
**Fibre-Metal E2RW Hard Hats** feature a unique smooth crown that reduces the risk of impacting objects being trapped by ribs, ridges or slots. Suspension has eight load-bearing points to stabilize and balance the hat.

**Fibre-Metal Supereight Swingstrap Hard Hats** feature a reversible ratchet headband allows workers to wear their hard hats in either the forward or reverse position without having to remove, reverse and reinstall the suspension.

**Bullard Classic Hard Hats** weigh 14.24 ounces and feature a wide profile brim for increased ventilation and greater comfort.

**Direct Safety Duo Safety Hard Hats** feature a low profile design and are available with your choice of a 4-point or 6-point ratchet suspension.

**North Hard Hats** weigh 13.6 ounces and feature a built-in rain trough.

**Sperian Alpha Hard Hats** feature a four-point nylon suspension with a low nape strap to keep hat firmly in place.

**Sperian Beta Hard Hats** offer the value of a low-cost four-point plastic pinlock suspension.
V-Gard® Hard Hats
Available with Cooling Vents

These hard hats feature a polyethylene shell and are available with either a 4-point Staz-On® Pinlock or Fas-Trac® Ratchet suspension system. Replacement Swing-Ratchet Suspension allows you to reverse the wearing position of the hat without removing the suspension. V-Gard® Advance™ Caps features a 6-point Advance Fast-Trac Ratchet suspension and cooling vents along the crown to improve air circulation. Standard size fits 6 1⁄2” – 8” and large fits 7 1⁄2” – 8 1⁄2” heads sizes. V-Gard Hats meet ANSI Z89.1 Class G and E. V-Gard Advance Caps meet ANSI Z89.1 Class C.

**Supereight® Hi-Vis Hard Hats**

These hats are formulated with a high-visibility, fade-proof yellow and orange coloring that will last throughout their service life. The reflective tape is specially selected to provide visibility throughout the various light conditions of the work day. **Full Brim Hard Hats** offer added protection from sun, splashes, dirt and debris. Both styles feature an 8-point ratchet suspension. **Mesh Covers** offers 1 ¼" wide reflective tape to increase visibility. Hat comes fully assembled. Meets ANSI Z89.1 Class G and E in both the forward and reverse positions.

**Customize Your Hard Hats to Feature Your Company Logo**

**Custom Hard Hat Imprint Program**

Promote your company’s unique identity with our custom logo program. Imprints will be on the Bullard Classic Hard Hats, listed on page 45. Camera ready artwork is required. Letterhead, business cards, faxes, photocopies, labels and stickers cannot be used. If you cannot provide camera ready artwork, the Conney Creative Services department can assist you in creating acceptable artwork. The production rate is $50.00 per hour and we estimate that most jobs would take a maximum of 1-2 hours. Allow four weeks for delivery, once the artwork is approved. Orders must be placed in multiples of 20, with the minimum order of 20 hats. Prices on Hard Hats pictured in the catalog do not reflect the prices of Custom Imprinted Hard Hats. To order Custom Hard Hats, call our Product Resource Team at 877-843-3766.

Don’t FORGET...

See our selection of Sweatbands on page 62.
Head Protection  Bump Caps/Sweatbands

**Bump Caps**
Only 7 1/2 Ounces

Lightweight caps provide protection from bumps and bruises in places with low head clearance. These 7 1/2 ounce hats feature a terry sweatband and a 4-point pinlock suspension. Note: Bump caps are not designed to protect against impact from falling or glancing objects. Does not meet ANSI Z89.1 standard.

# Head Protection: Winter Liners

**Winter Liners**

- **Hot Rods** Winter Liners feature two built-in pockets near the ears which hold Hot Rods Warming Packs (sold separately). Packs stay warm from 7-11 hours. These 100% flame-retardant liners feature an elastic strip in the forehead area to keep the liner snug against the face, DuPont Thermotex ear barriers for wind blocking and reflective stripes for work in dark conditions. Unless otherwise noted, all liners offer all the features listed above.

- **Poly Fleece Liners** offer many of the same features as the Hot Rods Winter Liners, but they don't include Thermotex insulated ear barriers and are not flame-retardant.

- **Knitted Tube Liners** protect your forehead and/or face from winter elements.

**Hot Rods® Winter Liners**

- **6850/6852 Cold Series 2-Layer Liners**: made of a cotton twill shell and a poly fleece lining. Both are flame-resistant until washed.
- **6873/6877 Extreme Series 3-Layer Liners**: made of a flame-resistant Banox cotton outer shell, foam mid-layer and fleece lining. Liners have an arc rating of 9.4 cal/cm² which meets NFPA 70E Hazard Risk Category 2.
- **6952 Extreme Series 3-Layer Liner**: made of a quilted nylon shell, foam mid-layer and a poly sherpa lining. Liner is flame-resistant until washed.

**All Flame-Retardant Liners are only flame-retardant until they are washed.**

**Poly Fleece Winter Liners**

- **Regular Length**
- **Shoulder Length**
- **Extra Long Neck with Mesh Mouth/Nose Guard**

**Knitted Tube Liners**

- **Forehead Only**
- **Full Face**

**Hand Warming Packs, 5 Pair/Pkg.**

---

**N-Ferno® Winter Liners**

- **6850/6852 Cold Series 2-Layer Liners**: made of a cotton twill shell and a poly fleece lining. Both are flame-resistant until washed.
- **6873/6877 Extreme Series 3-Layer Liners**: made of a flame-resistant Banox cotton outer shell, foam mid-layer and fleece lining. Liners have an arc rating of 9.4 cal/cm² which meets NFPA 70E Hazard Risk Category 2.
- **6952 Extreme Series 3-Layer Liner**: made of a quilted nylon shell, foam mid-layer and a poly sherpa lining. Liner is flame-resistant until washed.

All 2-Layer and 3-Layer styles offer:

- Warming pack pockets near ears
- Shirred elastic at the forehead to keep warmth in and cold out
- Hard hat suspension ties

**6970 Extreme Series Balaclava Winter Liner** covers the neck, ears, face and head with four-way stretch fleece. The Hot Rox heat exchanger captures heat and humidity from your exhaled breath and warms inhaled air.
