Model FM-1000 Series
Compact High Accuracy Flowmeter (65mm)

Description
The FM-1000 Series Flowmeters incorporate the innovative design of the FM-1050 in a more compact unit without reducing standards of accuracy. This is the rotameter of choice for those interested in conserving space. The same ±5% full scale accuracy is guaranteed for the 65mm scale length of these flowmeters.

Unlike the FM-1050 series which uses reference scales, the FM-1000 Series flowmeters are direct reading for air, and are available in either English or Metric units. Choose between a black glass or a stainless steel float. These flow tubes are fluted to provide better float stability.

The FM-1000 Series glass metering tubes are enclosed in the Tube-Cube®. Protection of the tube, magnified tube scale for easy reading and alignment during replacement are afforded with this unitized holder. Integral fluted float guides for optimum float performance are standard with all tubes unless otherwise specified.

Valve Options
- No valve for those who just want indication
- Utility (six-turn) valve for those who desire control as well as indication
- High accuracy (fifteen-turn) valve for very precise control

Design Features
- Rugged, compact design
- Precision tapered, fluted metering tube
- Tube Cube® unitized glass tube holding assembly
- Reflective plastic background and 1.5 X magnification lens for excellent readability
- Safety blow-out back panel
- Full 10 to 1 (100% to 10% full scale) metering range
- Low pressure drop for increased flow rates at low feed pressures
- Easy installation and quick service access

- Optional utility and high performance valves do not require special fittings
- Corrosion resistant options: all wetted parts of 316 stainless steel or Monel with Viton or Teflon seals
- Custom scales and flow curves available

Specifications
Pressure Rating: 250 psig maximum operating pressure
Temperature Rating: 250°F maximum operating temperature
Accuracy: ±5% of full scale flow rate – consult factory for higher accuracies
Repeatability: 0.25% of scale reading
Range: 10 to 1, i.e., 100% to 10% of full scale
Scale Readings: Direct reading air (special other scales available)
Shipping Weight: 1 lb

Materials of Construction
Wetted End Blocks, Fittings and Internal Parts: Brass, 316 stainless steel – standard; Anodized aluminum, Kynar, Monel – optional
Seal Materials: Buna-N or Viton – standard; Teflon, EPR, or Kalrez – optional
Side Plates: Painted or anodized aluminum
Metering Tube: Borosilicate glass enclosed in Tube-Cube® holder
Piping Connections: Brass, 316 stainless steel – standard; Aluminum, Monel – optional
Float Materials: Black glass or 316 stainless steel – standard; sapphire, ceramic, Carboloy or Tantalum – optional
Scale: Ceramic ink on glass tube, length 65mm

Dimensions FM-1000 Flowmeter
See pages 369 for engineering drawing.

Don’t See It Here?
Matheson offers a complete line of variable area flowmeters. Our standard, more common configuration options are shown here. However, if you don’t see what you are looking for, contact us. We manufacture flowmeters for liquids as well as gases, and can use other end block materials, such as aluminum, Kynar and Monel, and other seal materials such as Teflon, EPR and Kalrez. In addition, we offer other connection fittings, including NPT, tube and hose, in a variety of sizes. Lastly, we have an enormous library of flow calibrations and correlation tables for dozens of other gases and a wide range of conditions.

So, if you don’t see it here, give us a call. We’ll build to suit your specific needs.

Model Number Generator For FM-1000 Series Glass Tube Flowmeters

**MODEL SERIES**
- J = Model FM-1000 Glass Tube Flowmeter with 65mm tube

**NUMBER OF METERING TUBES**
- 1 = Single Tube Unit

**END BLOCKS/SEAL MATERIAL**
- 3 = Chrome Plated Brass with Buna-N Seals
- 4 = 316 Stainless Steel with Viton Seal

**VALVE TYPES**
- A = Utility Valve on Inlet
- B = Utility Valve on Outlet
- C = High Accuracy Valve on Inlet
- D = High Accuracy Valve on Outlet
- G = No Valve

**CONNECTIONS**
- 1 = 1/8” NPT Female (std)
- 2 = 1/4” NPT Female
- 4 = 1/4” Tube
- 6 = 1/4” Hose (3/16”-3/8” Hose Tapered)

**ACCESSORIES (ORDER SEPARATELY)**
- 0 = None
- 1 = Flush Panel Mounting Bezel – Clear
- 5 = Base Plate
- 7 = Flush Panel Mounting Bezel – Black

**CONNECTION ORIENTATION**
- 1 = Back In and Back Out

**FLOW TUBE (CAPACITIES)**
- JXXX = See Capacity Table For FM-1000 Series Flowmeters

**ADDITIONAL OPTIONS**
- • +/- 1% Accuracy, Full Scale, With Certification, Gases, Reference Scales
- • +/- 5% Accuracy, Full Scale with Certification, Gases, Direct Read
- • MMSP-0003-XX Clean for O2 Service

The FM-1000 Series are direct reading scale flowmeters for air. Inquire for other tube scales available.
